APPENDIX B: DAILY POPULATION BY MONTH 68

1. REPORT HIGHLIGHTS

The highlights outlined below give a brief overview of the contents of this report:

Administration

The total staffing complement of the Correctional Services Division in 1998-99 was 514.8 F.T.E. positions with 294.0 F.T.E.'s dedicated to Adult Institutional Services and 69.5 F.T.E.'s dedicated to Community Services.

Daily Population

During the 1998-99 fiscal year New Brunswick Correctional Services experienced a decrease in incarcerated adult offender populations and community based programs. Figure I illustrates the fluctuation in average daily populations for adult offenders under correctional supervision since 1988-89.

ADULT OFFENDERS

Institutional Services

The 1998-99 fiscal admissions to provincial correctional institutions (3374) decreased by 3.0% compared to 1997-98 (3479).

The average daily inmate population was 417, a decrease of 9.7% from 1997-98 (462).

The profile of an inmate being held in a provincial correctional facility in New Brunswick during 1998 was a single, 32 year old male, with a grade 10 education, incarcerated for a property related offence, and given a sentence length of 129 days. The average time served under sentence in custody was 46 days (including intermittent sentences and fine defaults).

Community Services

There was a 6.4% decrease in probation admissions, and a 3.3% decrease in the average monthly adult caseload in 1998-99.

The profile of an average adult offender under probation supervision during 1998-99 was a single 31 year old, unemployed male, with a grade 11 education. The average length of probation was 12 months.

Compared with 1997-98 there was a decrease of 1.4% in the number of adult community corrections reports completed during 1998-99.

A total of 1,147 cases were admitted to the Fine Option Program during the 1998-99 fiscal year, a 19.7% decrease compared with 1997-98 (1,428).

The average participant in the Fine Option Program during 1998-99 was a 32 year old male convicted of an impaired driving offence.

A total of 258 cases participated in the Community Service Order Program during 1998-99, a 32.8% decrease compared with 1997-98 (384).

The profile of an average participant in the Community Service Order Program during 1998-99, was an unemployed 29 year old male involved in a property related offence.

A total of 2,345 inmate requests for temporary absence passes were made in 1998-99; of these 1281 (54.6%) were approved.

The following table and figures gives an overview of the daily populations dealt with by Correctional Services over the last decade.

Provincial Statutes	188	7.0
Other Federal Statutes	585	21.7
Municipal By-laws	70	2.6
Unknown	367	-
TOTAL	3057	100.0

Of the total admissions to provincial institutions in 1998, 69% were admitted for criminal code offences; 7% for provincial statute violations and 22% for federal statute violations. Crimes against justice were the major criminal code offence which adult offenders were incarcerated in New Brunswick during 1998 (8.6%).

LENGTH OF SENTENCE

1998

TABLE 8

LENGTH OF SENTENCE	FREQUENCY	ADJUSTED %
1 - 14 days	925	39.0
15 - 30 days	485	20.4
1 mo. - 3 mos.	263	11.1
3 mos. - 6 mos.	292	12.3
6 mos. - 1 yr.	195	8.2
1 yr. - 2 yrs.	119	5.0
2 years +	95	4.0
Unknown*	683	-
TOTAL	3057	100.0

Excluding offenders given a sentence of 2 years or more, the average sentence was 74 days, and the median sentence length 21 days. Which means 50% of these offenders are serving a sentence of 21 days or less.

* Unknown includes that portion of the population held soley on remand.

3.2 INMATE POPULATION DATA

AVERAGE DAILY INMATE POPULATION

1998-99

TABLE 9

	88/89	89/90	90/91	91/92	92/93	93/94	94/95	95/96	96/97	97/98	98/99

Bouctouche	169	2	85	-48.8
TOTAL	2599	44	59	-10.6

Due to rounding, figures may not add to totals.

Fredericton, Moncton, and Bouctouche have Probation Officer(s) dedicated to the supervision of only adult offenders. However, Woodstock, Bathurst, Campbellton, Edmundston, Grand Falls, Newcastle, St. Stephen and Shippagan have Probation Officer(s) carrying a mixed adult/young offender caseload. Saint John has 5 Probation Officer(s) dedicated to the supervision of only adults and 5 Probation Offficer(s) carrying a mixed adult/young offender caseload. This table provides an overview of adult offenders.

[2] Average monthly caseload does not include temporary absence, community service order, N.B. Parole or other community supervision.

TOTAL	1,036	1,875	2,599	4,474	40	16	56	80

This table was added to the 1991-92 report in order to have a point of comparison between offices due to the administrative arrangements where some Probation Officers carry mixed adult and young offender cases. The objective of this table is to bring all cases to adult equivalency status. **The table is based on the premise that an average caseload dedicated to young offenders is more demanding of time than an average caseload of adult offenders.** Within the cost sharing negotiations in 1989-90, the federal government accepted this premise. Based on the average caseload dedicated to young offenders and the average caseload of adult offenders, both the provincial and federal governments agreed that the work involved in managing one young offender case would equal the work of 1.81 adult cases. Furthermore, both governments agreed to utilize this 1.81 factor for a period of five years.

Based on this 1.81 factor, the 1998-99 average young offender caseload per office was adjusted to an adult equivalency caseload. This figure was subsequently combined with the 1998-99 average adult caseload per office. The last column indicates the total combined adult/young offender caseload in an adult equivalency value. This table provides only a comparable **indicator** of probation caseload statistics based on adult equivalency between offices, and **does not provide a complete workload measurement** (excludes workload on report preparation, community assessments, Temporary Absences/Release supervision, open custody cases, secure custody cases, YOA reviews preparation, Community Based Programs, Alternative Measures, etc.).

Note: In 1998-99, Moncton, Fredericton, and Bouctouche had Probation Officer(s)/Youth Worker(s) dedicated to the supervision of young offenders. Saint John had 4 Probation Officer(s) dedicated to the supervision of only young offenders and 5 Probation Officer(s) carrying a mixed adult/young offender caseload. The number of Probation Officers in Grand Falls includes the position dedicated to Tobique.

TOTAL	1466	42	213	1721

Compared with 1997-98 there was a 1.4% decrease in the number of adult community corrections reports completed.

4.1.3 Adult Probation Client Profile

The following client profile is not based on all probationers, but only on cases placed under probation supervision, cases terminating their probation period, and active cases receiving an extended probation period due to a new charge(s) during the 1998-99 fiscal year.

A typical offender under probation supervision in New Brunswick during the 1998-99 fiscal year was a singie, thirty-one year old male, who had a grade eleven education, and was unemployed. The average length of probation given was twelve months for assault.

The following tables give a breakdown by sex, court of disposition, disposition, probation length, offences, age, education, employment status and special conditions of offenders under probation supervision in 1998-99. Unknown or missing values have been included in the absolute frequencies but percentage calculations have been adjusted to omit missing values.

4.4 TEMPORARY ABSENCE PROGRAM

The Temporary Absence Program permits sentenced inmates to be conditionally released for medical, humanitarian or rehabilitative reasons, allowing the inmate to serve part of his sentence within the community.

Based on a philosophy which emphasizes the protection of community and the social re-integration of the offender, the Correctional Services Division has developed a Temporary Absence Program for deserving inmates who are capable of functioning in the community in a responsible manner.

Candidates for temporary absence are assessed by the classification committee of the institution. Overall conduct, the availability of an adequate release plan, and a satisfactory community assessment are factors considered. Community assessment includes consultation with the sentencing judge, the police and the crown prosecutor, and collateral contacts of the offender.

Correctional Services Policy and Procedures Manual states the following definitions for types of temporary absences:

a) Twenty-four hour temporary absence - the release of an inmate for less than 24 hours.

b) Daily temporary absence - the release of a person under sentence where he must return to the institution each day.

c) Full temporary absence - the release of a person under sentence where he is not required to return to the institution until the time specified on the release certificate.

4.5.1 Adult Conditional Sentence Client Profile

The following conditonal sentence client profile is based on new admissions during the 1998-99 fiscal year.

A typical offender given a conditonal sentence in New Brunswick during the 1998-99 fiscal year was a thirty-three year old male, who had a grade twelve education, and was unemployed. The average length of conditional sentence given was six months for assault.

The following tables give a breakdown by sex, court of disposition, disposition, length of conditional sentence, offences, age, education, employment status and special conditions of offenders given a conditional sentence in 1998-99. Unknown or missing values have been included in the absolute frequencies but percentage calculations have been adjusted to omit missing values.
